

### • **How do respect and responsibility connect to golf?**

- A responsibility is something you are expected to do or even a way that you are expected to act. Whether you are on or off the golf course, demonstrating responsibility and respect for rules is a way of Using Good Judgment.
- You can have responsibilities. • You can act responsibly. • You can take responsibility for your actions. Responsibility is a choice. Acting responsibly is a commitment. Choosing to play the game of golf includes accepting the responsibility to respect the rules and keep the golf course and its surroundings in better shape than you found them, and to keep up with the pace of play.
- You can have respect, or you can demonstrate respect. In golf, showing respect towards an opponent teaches us how to find ways to respect everyone in our day to day life. We can demonstrate respect by following the rules of the game.
  - The furthest person away from the hole hits first
  - Keeping up with pace of play
  - Repairing divot/ball marks
  - Taking care of our equipment
  - Understanding the differences between me and my opponent
  - Being honest about my score

### • **Follow Up Questions:**

- What are some examples of responsible actions/good choices?
- How can you demonstrate responsibility on the golf course?
- How is being responsible showing good judgement?
- How can you tell if someone is respecting the rules?

### **GOLF SKILL QUESTIONS**

#### • **What are the golf skills you focused on today?**

- Putting, Chipping, Pitching, Full Swing

#### • **What area did you focus on with the golf skills?**

- Target awareness/Getting ready to swing - How do we know where to aim when we hit? Our shoulders and feet will create lines pointing towards our target. We have to get ready to swing to make sure we are aiming the right way. Setting our feet/shoulders/hands each time should be done each time after we pick our target!

#### • **What is one skill you learned that you did not know before? How does this skill help your golf game?**
